SECTION 1 - IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

Contact information

General
Fluidigm Corporation
7000 Shoreline Court Suite 100, South San Francisco, CA 94080
Main (U.S.): +1 (650) 266-6000
E-mail: techsupport@fluidigm.com

Emergency telephone number
+ (650) 266-6100 (outside US)
+ (866) 358-4354 (toll free)

Product identifier
Biomark™ 24.192 GE Reagent Kit—2 IFCs

Synonyms
None identified

Trade names
None identified

Chemical family
Mixture – bovine serum albumin

Relevant identified uses of the substance or mixture and uses advised against
For Research Use Only. Not for use of diagnostic procedures.

Note
This SDS is written to address potential health and safety issues associated with the handling of the formulated product.

SECTION 2 - HAZARDS IDENTIFICATION

This product contains eight (8) parts. The following provides the hazard classification for each part.

Part 1: 20x GE Sample Loading Reagent (Part #: 85000746)

Classification of the substance or mixture

Globally Harmonized System [GHS]
Skin sensitizer - Category 1. Respiratory sensitizer - Category 1.

Label elements

GHS hazard pictogram

GHS signal word
Danger

GHS hazard statements
H317 - May cause allergic skin reaction. H334 - May cause allergy or asthma symptoms or breathing difficulties if inhaled.

GHS precautionary statements
P261 - Avoid breathing mist or vapor. P272 - Contaminated work clothing should not be allowed out of the workplace. P302 + P352 - IF ON SKIN: Wash with plenty of soap and water. P304 + P340 - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. P333 + P313 - If skin irritation or rash occurs: Get medical advice/attention. P342 + P311 - If experiencing respiratory symptoms: Call a POISON CENTER or doctor/physician. P362 + P364 - Take off contaminated clothing and wash it before reuse. P501 - Dispose of contents/container to location in accordance with local/regional/national/international regulations.

Other hazards
Mixture - contains bovine serum albumin. May cause respiratory sensitization. Part/mixture not yet fully tested.
SAFETY DATA SHEET

Product Identifier: Biomark™ 24.192 GE Reagent Kit—2 IFCs
Catalog ID numbers: 101-7589, 101-7590, 101-7569

Note

This mixture is classified as hazardous under GHS as implemented by Regulation EC No 1272/2008 (EU CLP), WHMIS 2015 (Health Canada), and Hazard Communication Standard No. 1910.1200 (US OSHA). The pharmacological, toxicological, and ecological properties of this part/mixture have not been fully characterized.

Part description and number

GHS Hazard Classification

Part 2: Tube, PreAmp Master Mix (100-5744)
None required.

Part 3: Tube, PCR Water (100-5941)
None required.

Part 4: Tube, Reverse Transcription Master Mix (100-6297)
None required.

Part 5: Tube, Actuation Fluid (100-6250)
None required.

Part 6: Bottle, Pressure Fluid (100-6249)
None required.

Part 7: Tube, 2X Assay Loading Reagent (85000736)
None required.

Part 8: 24.192 Control Line Fluid Kit – 2 IFC (101-7602)
None required.

Other hazards

Parts of the kit may cause irritation. Part/mixture not yet fully tested.

Note

Parts 2-8 are not classified as hazardous under GHS as implemented by Regulation EC No 1272/2008 (EU CLP), WHMIS 2015 (Health Canada), and Hazard Communication Standard No. 1910.1200 (US OSHA). The pharmacological, toxicological, and ecological properties of this part/mixture have not been fully characterized.

SECTION 3 - COMPOSITION/INFORMATION ON INGREDIENTS

Part 1: 20x GE Sample Loading Reagent (Part #: 85000746)

<table>

SECTION 4 - FIRST AID MEASURES

Description of first aid measures

Immediate Medical Attention Needed

Yes

Eye Contact

If easy to do, remove contact lenses, if worn. Immediately flush eyes with copious quantities of water for at least 15 minutes. If irritation occurs or persists, notify medical personnel and supervisor.
SAFETY DATA SHEET

Product Identifier: Biomark™ 24.192 GE Reagent Kit—2 IFCs
Catalog ID numbers: 101-7589, 101-7590, 101-7659
SDS ID: 101-7858 Revision A1

Skin Contact
Wash exposed area with soap and water and remove contaminated clothing/shoes. If irritation occurs or persists, notify medical personnel and supervisor.

Inhalation
Immediately move exposed subject to fresh air. If not breathing, give artificial respiration. If breathing is labored, administer oxygen. Immediately notify medical personnel and supervisor.

Ingestion
Do not induce vomiting unless directed by medical personnel. Do not give anything to drink unless directed by medical personnel. Never give anything by mouth to an unconscious person. Notify medical personnel and supervisor.

Protection of first aid responders
See Section 8 for Exposure Controls/Personal Protection recommendations.

Most important symptoms and effects, both acute and delayed
See Sections 2 and 11.

Indication of immediate medical attention and special treatment needed, if necessary
Certain parts of the kit contain low levels of bovine serum albumin. Medical conditions aggravated by exposure: None known or reported. Treat symptomatically and supportively.

SECTION 5 - FIREFIGHTING MEASURES

Extinguishing media
Use water spray (fog), foam, dry powder, or carbon dioxide, as appropriate for surrounding fire and materials.

Specific hazards arising from the substance or mixture
No information identified. May emit carbon monoxide, carbon dioxide, oxides of nitrogen and sulfur, metal-containing compounds, and other nitrogen-, sulfur- or fluorine-containing compounds.

Flammability/Explosivity
No information identified.

Advice for firefighters
Wear full protective clothing and a self-contained breathing apparatus with a full facepiece operated in the pressure demand or other positive pressure mode. Decontaminate all equipment after use.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures
If product is released or spilled, take proper precautions to minimize exposure by using appropriate personal protective equipment (see Section 8). Area should be adequately ventilated. Do not breathe mist/vapors/spray.

Environmental precautions
Do not empty into drains. Avoid release to the environment.

Methods and material for containment and cleaning up
If vials are crushed or broken, DO NOT CAUSE MATERIAL TO BECOME AIRBORNE. For small spills, soak up material with absorbent, e.g., paper towels. For large spills, cordon off spill area and minimize the spreading of spilled material. Soak up material with absorbent. Collect spilled material, absorbent, and rinse water into suitable containers for proper disposal in accordance with applicable waste disposal regulations (see Section 13). Decontaminate the area twice.

Reference to other sections
See Sections 8 and 13 for more information.

SECTION 7 - HANDLING AND STORAGE

Precautions for safe handling
Avoid breathing dust/mist/vapor/spray. Do not permit eating/drinking/smoking near this material.

Conditions for safe storage including any incompatibilities
Store in a well-ventilated area; keep container upright and tightly closed.

Specific end use(s)
No information identified.
SECTION 8 - EXPOSURE CONTROLS/PERSONAL PROTECTION

Note
Dispose of broken tubes/syringes in a sharps container.

Control Parameters/Occupational Exposure Limit Values

<table>
<thead>

Exposure/Engineering controls
None required for normal handling of packaged product. Selection and use of containment devices and personal protective equipment should be based on a risk assessment of exposure potential. Use local exhaust and/or enclosure at aerosol/ mist-generating points. Use engineered local exhaust ventilation (LEV) and/or enclosure for procedures where aerosolization may occur such as opened transfers, pumping, and spraying. Solutions can be handled outside a containment system or without LEV during procedures with no potential for aerosolization. All containers for solutions and slurries must be covered while being transferred.

Respiratory protection
None required for normal handling of packaged product. If vials are crushed or broken: Choice of respiratory protection should be appropriate to the task and the level of existing engineering controls. Choice of respiratory protection should be appropriate to the task and the level of existing engineering controls. At a minimum, a tight-fitting full-face respirator with HEPA filters is required when performing aerosol generating operations. A powered air-purifying respirator (PAPR) with HEPA filters and head cover is required for spill cleanup.

Hand protection
Wear nitrile or other impervious gloves if skin contact is possible. When the material is diluted in an organic solvent, wear gloves that provide protection against the solvent.

Skin protection
Wear appropriate gloves, lab coat, or other protective overgarment if skin contact is likely. Base the choice of skin protection on the job activity, potential for skin contact and solvents and reagents in use.

Eye/face protection
Wear safety glasses with side shields, chemical splash goggles, or full face shield, if necessary. Base the choice of protection on the job activity and potential for contact with eyes or face. An emergency eye wash station should be available.

Environmetal Exposure Controls
Avoid release to the environment and operate within closed systems wherever practicable. Air and liquid emissions should be directed to appropriate pollution control devices. In case of spill, do not release to drains. Implement appropriate and effective emergency response procedures to prevent release or spread of contamination and to prevent inadvertent contact by personnel.

Other protective measures
Wash hands in the event of contact with this substance, especially before eating, drinking or smoking. Protective equipment is not to be worn outside the work area (e.g., in common areas or out-of-doors).

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Initial boiling point and boiling range
No information identified.

Flash point
No information identified.

Evaporation rate
No information identified.

Flammability (solid, gas)
No information identified.

Upper/lower flammability or explosive limits
No information identified.

Vapor pressure
No information identified.

Vapor density
No information identified.

Relative density
No information identified.

Water solubility
No information identified.

Solvent solubility
No information identified.

Partition coefficient (n-octanol/water)
No information identified.

Auto-ignition temperature
No information identified.

Decomposition temperature
No information identified.

Viscosity
No information identified.

Explosive properties
No information identified.

Oxidizing properties
No information identified.

Other information

Molecular weight
Not applicable (Mixture)

Molecular formula
Not applicable (Mixture)

SECTION 10 - STABILITY AND REACTIVITY

Reactivity
No information identified.

Chemical stability
Stable when stored as recommended.

Possibility of hazardous reactions
No information identified.

Conditions to avoid
No information identified.

Incompatible materials
No information identified.

Hazardous decomposition products
No information identified.

SECTION 11 - TOXICOLOGICAL INFORMATION

Note
No data were identified for the product/mixture. The following information is for the individual hazardous ingredients contained in some parts of the kit.

Information on toxicological effects

Route of entry
May be absorbed by inhalation, skin contact and ingestion.
SAFETY DATA SHEET

Product Identifier: Biomark™ 24.192 GE Reagent Kit—2 IFCs
Catalog ID numbers: 101-7589, 101-7590, 101-7659
SDS ID: 101-7858 Revision A1

Acute toxicity

</tbody>
</table>

Irritation/Corrosion No information available

Sensitization As bovine serum albumin (BSA) is derived from animal (foreign) protein, there is potential for the material to cause an allergic response in humans. Occupational exposure to BSA has caused some cases of allergic sensitization in workers handling this material.

STOT-single exposure No studies identified.

STOT-repeated exposure/Repeat-dose toxicity No studies identified.

Reproductive toxicity No information available

Developmental toxicity No information available

Genotoxicity No information available

Carcinogenicity No information available

Aspiration hazard No data available.

Human health data See Section 2 - "Other hazards"

</table>

Persistence and Degradability No data identified.

Bioaccumulative potential No data identified.

Mobility in soil No data identified.

Results of PBT and vPvB assessment Not performed.

Other adverse effects No data identified.

Note The environmental characteristics of this product/mixture have not been fully investigated. The above data are for the active ingredient and/or any other ingredient(s) where applicable. Releases to the environment should be avoided.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste treatment methods Dispose of wastes in accordance to prescribed federal, state, and local guidelines, e.g., appropriately permitted chemical waste incinerator. Do not send down the drain or flush down the toilet. All wastes containing the material should be properly labeled. Rinse waters resulting from spill cleanups should be discharged in an environmentally safe manner, e.g., appropriately permitted municipal or on-site wastewater treatment facility.

SECTION 14 - TRANSPORT INFORMATION

Transport Based on the available data, this product/mixture is not regulated as a hazardous material/ dangerous good under EU ADR/RID, US DOT, Canada TDG, IATA, or IMDG.

UN number None assigned.

UN proper shipping name None assigned.
SAFETY DATA SHEET

Product Identifier: Biomark™ 24.192 GE Reagent Kit—2 IFCs
Catalog ID numbers: 101-7589, 101-7590, 101-7659

Transport hazard classes and packing group
None assigned

Environmental hazards
Based on the available data, this product/mixture is not regulated as an environmental hazard or a marine pollutant.

Special precautions for users
No special precautions needed. Avoid release to the environment.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable.

SECTION 15 - REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture
This SDS generally complies with the requirements listed under current guidelines in the US, EU and Canada. Consult your local or regional authorities for more information.

Chemical safety assessment
Not conducted.

TSCA status
The components of this product/mixture are not listed.

SARA section 313
Not listed.

California proposition 65
The components of this product/mixture are not listed.

Component Analysis – State
The components of this product/mixture are not listed.

Component Analysis – Chemical Inventory
Bovine serum albumin is listed in the chemical inventory of the following countries: Australia, Canada, China, EU, New Zealand, and the Philippines.

Additional information
No other information identified.

SECTION 16 - OTHER INFORMATION

NFPA Ratings
Bovine serum albumin
Health: 1
Fire: 0
Reactivity: 0
