

Anti-Human CD61-165Ho

Catalog: 3165010B

Package Size: 100 tests

Storage: Store product at 4°C. Do not freeze.

Reactivity: Cynomolgus Monkey, Rhesus, Olive Baboon,

Clone: VI-PL2

Isotype: Mouse IgG1

Formulation: Antibody stabilizer with 0.05% Sodium Azide

Technical Information

Validation: Each lot of conjugated antibody is quality control tested by CyTOF[®] analysis of stained cells using the appropriate positive and negative cell staining and/or activation controls.

Recommended Usage: The suggested use is 1 µl for up to 3 X 10⁶ live cells in 100 µl. It is recommended that the antibody be titrated for optimal performance for each of the desired applications.

Human PBMCs stained with 165Ho-anti-CD61(VI-PL2). platelets (top) and B lymphocytes (bottom) are displayed in the analysis.

Description

CD61, also known as integrin b3 or glycoprotein IIIa (gpIIIa), is a type I transmembrane glycoprotein. CD41 is a member of integrin family and is expressed on platelets and megakaryocytes playing a role in platelet activation and aggregation. CD61 in complex with CD51 has also been reported on osteoclasts, fibroblast, macrophages and some tumor cells.
