Anti-pCREB [S133] (87G3)-165Ho

Pathologist-Verified Clone for Imaging Mass Cytometry™

Catalog number: 3165034D
Package size and concentration: 25 µg, 0.5 mg/mL
Clone: 87G3
Isotype: Rabbit IgG
Pathologist-verified on: Human FFPE
Fluidigm tested on: Human FFPE, Mouse FFPE

Reported reactivity: Human, Mouse, Rat
Formulation: Antibody stabilizer with 0.05% sodium azide
Storage: Store at 4 °C. Do not freeze.
Application: IMC paraffin

Technical Information

Description: CREB is a 43 kDa leucine zipper transcription factor that belongs to the CREB/ATF family. CREB regulates proliferation, differentiation, and survival in diverse cell types, including cells of neuronal and hematopoietic origin. The serine 133 residue within the kinase-inducible domain (KID) is phosphorylated by various kinases. This phosphorylation promotes the interaction of CREB with various transcriptional co-activators, in particular the histone acetyltransferases CREB-binding protein (CBP) and p300. Phosphorylation of CREB occurs in response to stimuli including growth factors, neurotransmitters, and stress signals that increase intracellular cAMP or calcium levels. When activated, CREB binds to cAMP response elements, thereby initiating transcription of CREB target genes. The 87G3 antibody reacts with CREB phosphorylated at the serine 133 residue.

Application: The metal-tagged antibody is designed and formulated for the application of Imaging Mass Cytometry™ (IMC™) using the Fluidigm Hyperion™ Imaging System on formalin-fixed, paraffin-embedded (FFPE) tissue sections.

Quality control: Each lot of conjugated antibody is quality control- tested by Imaging Mass Cytometry on tissue sections.

Recommended concentration: For optimal performance it is recommended that the antibody be titrated for the desired application. Suggested initial dilution range: IMC-Paraffin: 1:25 to 1:100

Safety

Use standard laboratory safety protocols. Read and understand the safety data sheets (SDSs) before handling chemicals. To obtain SDSs, go to fluidigm.com/sds and search for the SDS using either the product name or the part number.
