Product identifier: CyTOF® Calibration Beads

Synonyms: None identified

Trade names: None identified

Relevant identified uses of the substance or mixture and uses advised against

For research use only. Not for use in diagnostic procedures.

Note

This SDS is written to address potential health and safety issues associated with the handling of the formulated product.

SECTION 2 - HAZARDS IDENTIFICATION

Classification of the substance or mixture

Globally Harmonized System [GHS] Not classified.

AU Hazard Classification (NOHSC) Hazardous Substance. Non-hazardous goods.

Label elements

GHS hazard pictogram None required

GHS signal word None required

GHS hazard statements None required

GHS precautionary statements None required

Other hazards May cause eye/skin irritation. Mixture not yet fully tested.

CyTOF® Calibration Beads
Revision date: May-2020, Revision:6.0
SECTION 4 - FIRST AID MEASURES

Description of first aid measures

Immediate Medical Attention Needed: No

Eye Contact: If easy to do, remove contact lenses, if worn. Immediately flush eyes with copious quantities of water for at least 15 minutes. If irritation occurs or persists, notify medical personnel and supervisor.

Skin Contact: Wash exposed area with soap and water and remove contaminated clothing/shoes. If irritation occurs or persists, notify medical personnel and supervisor.

Inhalation: Immediately move exposed subject to fresh air. If not breathing, give artificial respiration. If breathing is labored, administer oxygen. Immediately notify medical personnel and supervisor.

Ingestion: Do not induce vomiting unless directed by medical personnel. Do not give anything to drink unless directed by medical personnel. Never give anything by mouth to an unconscious person. Notify medical personnel and supervisor.

Protection of first aid responders: See Section 8 for Exposure Controls/Personal Protection recommendations.

Most important symptoms and effects, both acute and delayed: See Sections 2 and 11.

Indication of immediate medical attention and special treatment needed, if necessary: Medical conditions aggravated by exposure: None known or reported. Treat symptomatically and supportively.

SECTION 5 - FIREFIGHTING MEASURES

Extinguishing media: Use water spray (fog), foam, dry powder, or carbon dioxide, as appropriate for surrounding fire and materials.

Specific hazards arising from the substance or mixture: No information identified. May emit carbon monoxide, carbon dioxide, nitrogen-, chloride-, and metal-containing compounds.

Flammability/Explosivity: Not expected to be flammable or explosive.

Advice for firefighters: Wear full protective clothing and a self-contained breathing apparatus with a full facepiece operated in the pressure demand or other positive pressure mode. Decontaminate all equipment after use.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures: If product is released or spilled, take proper precautions to minimize exposure by using appropriate personal protective equipment (see Section 8). Area should be adequately ventilated. Do not breathe mist/vapors/spray.

Environmental precautions: Do not empty into drains. Avoid release to the environment.

Methods and material for containment and cleaning up: Dike area to contain spill. Maintain ventilation until all vapors have been eliminated. Take precautions as necessary to prevent contamination of ground and surface waters. If vials are crushed or broken, DO NOT CAUSE MATERIAL TO BECOME AIRBORNE. For small spills, soak up material with absorbent, e.g., paper towels. For large spills, cordon off spill area and minimize the spreading of spilled material. Soak up material with absorbent. Collect spilled material, absorbent, and rinse water into suitable containers for proper disposal in accordance with applicable waste disposal regulations (see Section 13). Decontaminate the area twice.
SAFETY DATA SHEET

Product Identifier: CyTOF® Calibration Beads
Catalog ID number: 201073

Reference to other sections  See Sections 8 and 13 for more information.

SECTION 7 - HANDLING AND STORAGE

Precautions for safe handling  Follow recommendations for handling pharmaceutical agents (i.e., use of engineering controls and/or other personal protective equipment if needed). Avoid breathing vapor or mist. Do not permit eating/drinking/smoking near this material. All materials used for transferring or preparing this product must be considered contaminated and disposed of properly.

Conditions for safe storage including any incompatibilities  Keep from contact with clothing and other combustible materials. Store at 4°C in tightly closed container. Avoid strong oxidizers. Store in sealed containers that are appropriately labeled. Do not store in metal or glass containers. Do not store in direct sunlight. Do not store near organic substances.

Specific end use(s)  No information identified.

SECTION 8 - EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering controls  Use mechanical exhaust or laboratory fume hood to avoid exposure.

Respiratory protection  Respiratory protection is not required. Where protection from nuisance levels of dusts or aerosols are desired, use type N95 (US) or type P1 (EN 143) dust masks. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Hand protection  Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove’s surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

Skin protection  Choose skin protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific work-place.

Eye/face protection  Wear safety glasses with side shields, chemical splash goggles, or full face shield, if necessary. Base the choice of protection on the job activity and potential for contact with eyes or face. An emergency eye wash station should be available.

Environmental Exposure Controls  Avoid release to the environment and operate within closed systems wherever practicable. Air and liquid emissions should be directed to appropriate pollution control devices. In case of spill, do not release to drains. Implement appropriate and effective emergency response procedures to prevent release or spread of contamination and to prevent inadvertent contact by personnel.

Other protective measures  Wash hands in the event of contact with this product/mixture, especially before eating, drinking or smoking. Protective equipment is not to be worn outside the work area (e.g., in common areas or out-of-doors).

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Appearance  Clear liquid
Color  Colorless
Odor  No information identified.
Odor threshold  No information identified.
SAFETY DATA SHEET

Product Identifier: CyTOF® Calibration Beads
Catalog ID number: 201073

pH
No information identified.

Melting point/freezing point
No information identified.

Initial boiling point and boiling range
No information identified.

Flash point
No information identified.

Evaporation rate
No information identified.

Flammability (solid, gas)
Not applicable.

Upper/lower flammability or explosive limits
No information identified.

Vapor pressure
No information identified.

Vapor density
No information identified.

Relative density
No information identified.

Water solubility
Fully soluble in water.

Solvent solubility
No information identified.

Partition coefficient (n-octanol/water)
No information identified.

Auto-ignition temperature
No information identified.

Decomposition temperature
No information identified.

Viscosity
No information identified.

Explosive properties
No information identified.

Oxidizing properties
No information identified.

Other information

Molecular weight
Not applicable (Mixture)

Molecular formula
Not applicable (Mixture)

SECTION 10 - STABILITY AND REACTIVITY

Reactivity
No data available.

Chemical stability
Stable under normal handling and storage conditions.

Possibility of hazardous reactions
No data available.

Conditions to avoid
Keep away from incompatible materials.

Incompatible materials
Strong oxidizers.

Hazardous decomposition products
Under fire conditions: Hydrogen chloride gas.

SECTION 11 - TOXICOLOGICAL INFORMATION

Information on toxicological effects
### SAFETY DATA SHEET

**Product Identifier:** CyTOF® Calibration Beads  
**Catalog ID number:** 201073

<table>
<thead>
<tr>
<th>Category</th>
<th>Information</th>
</tr>
</thead>
<tbody>
<tr>
<td>Acute toxicity</td>
<td>No data available</td>
</tr>
<tr>
<td>Irritation/Corrosion</td>
<td>No data available</td>

</tbody>
</table>
| STOT-repeated exposure/Repeat-dose toxicity | No data available |}

**Reproductive toxicity:** No data available.

**Developmental toxicity:** No data available.

**Genotoxicity:** No data available.

**Carcinogenicity:** No studies identified. The ingredients in this mixture are not listed by NTP, IARC, ACGIH or OSHA as a carcinogen.

**Aspiration hazard:** No data available.

**Human health data**  
See Section 2 - "Other hazards"

### SECTION 12 - ECOLOGICAL INFORMATION

**Toxicity**  
No data available.

**Persistence and Degradability**  
No data available.

**Bioaccumulative potential**  
No data available.

**Mobility in soil**  
No data available.

**Results of PBT and vPvB assessment**  
Not performed.

**Other adverse effects**  
No data identified.

**Note**  
The environmental characteristics of this product/mixture have not been fully investigated. Releases to the environment should be avoided.

### SECTION 13 - DISPOSAL CONSIDERATIONS

**Waste treatment methods**  
Dispose of wastes in accordance to prescribed federal, state, and local guidelines, e.g., appropriately permitted chemical waste incinerator. Do not send down the drain or flush down the toilet. All wastes containing the material should be properly labeled. Rinse waters resulting from spill cleanups should be discharged in an environmentally safe manner, e.g., appropriately permitted municipal or on-site wastewater treatment facility.

### SECTION 14 - TRANSPORT INFORMATION

**Transport**  
Based on the available data, this product/mixture is not regulated as a hazardous material/dangerous good under EU ADR/RID, US DOT, Canada TDG, IATA, or IMDG.

**UN number**  
None assigned.

**UN proper shipping name**  
None assigned.

**Transport hazard classes and packing group**  
None assigned.

**Environmental hazards**  
Based on the available data, this product/mixture is not regulated as an environmental hazard or a marine pollutant.
SAFETY DATA SHEET

Product Identifier: CyTOF® Calibration Beads
Catalog ID number: 201073

Special precautions for users Avoid release to the environment.
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code Not applicable.

Hazardchem Code/HIN None assigned.

SECTION 15 - REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture This SDS complies with the requirements under US, EU and GHS (EU CLP - Regulation EC No 1272/2008) guidelines. Consult your local/regional authorities for more information.

Chemical safety assessment Not conducted.

WHMIS classification Not classified.

TSCA status Not listed on TSCA inventory.

SARA section 313 Not listed.

California proposition 65 Not listed.

International Regulations: This product contains the following components listed on the Canadian NDSL list. All other components are on the Canadian DSL list.
