SECTION 1 - IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

Contact information

General
Fluidigm Corporation
7000 Shoreline Court Suite 100
South San Francisco, CA  94080
Main (U.S.): +1 (650) 266-6000
E-mail: techsupport@fluidigm.com

Emergency telephone number
+ (650) 266-6100 (outside US) + (866) 358-4354 (toll free)

Product identifier
Part Number 101-8913: 5x TSP RT Buffer

Synonyms
None Identified

Trade names
None Identified

Chemical family
Mixture

Relevant identified uses of the substance or mixture and uses advised against
For research use only. Not for use in diagnostic procedures.

Note
This SDS is written to address potential worker health and safety issues associated with the handling of the formulated product.

SECTION 2 - HAZARDS IDENTIFICATION

Classification of the substance or mixture

Globally Harmonized System [GHS]
Not classified

Label elements

GHS hazard pictogram
None required

GHS signal word
None required

GHS hazard statements
None required
SECTION 2 - HAZARDS IDENTIFICATION …continued

GHS precautionary statements

None required

Other hazards

The potential health hazards associated with exposure/handling of this mixture are unknown; no data specific for the mixture were identified. The following data describe the hazards of individual ingredients, where applicable.

Note

This mixture does not meet criteria for classification under GHS as implemented by Regulation EC No 1272/2008 (EU CLP), WHMIS 2015 (Health Canada), and Hazard Communication Standard No. 1910.1200 (US OSHA). Nevertheless, it should be handled with caution as it has not yet been fully tested.

SECTION 3 - COMPOSITION/INFORMATION ON INGREDIENTS

<table>

<td>ATO4: H302; EI2: H319</td>
</tr>
</tbody>
</table>

Note

The ingredients listed above are considered hazardous and/or are one of the primary ingredients. See Section 16 for full text of GHS classifications.

SECTION 4 - FIRST AID MEASURES

Description of first aid measures

Immediate Medical Attention Needed

No. If exposed or concerned: Get medical advice/attention.

Eye Contact

If easy to do, remove contact lenses, if worn. Immediately flush eyes with copious quantities of water for at least 15 minutes. If irritation occurs or persists, notify medical personnel and supervisor.

Skin Contact

Wash exposed area with soap and water and remove contaminated clothing/shoes. If irritation occurs or persists, notify medical personnel and supervisor.

Inhalation

Immediately move exposed subject to fresh air. If not breathing, give artificial respiration. If breathing is labored, administer oxygen. Immediately notify medical personnel and supervisor.

Ingestion

If swallowed, call a physician immediately. Do not induce vomiting unless directed by medical personnel. Do not give anything to drink unless directed by medical personnel. Never give anything by mouth to an unconscious person. If signs/symptoms occur, get medical attention.

Protection of first aid responders

See Section 8 for Exposure Controls/Personal Protection recommendations.
SECTION 4 - FIRST AID MEASURES …continued

Most important symptoms and effects, both acute and delayed
See Sections 2 and 11.

Indication of immediate medical attention and special treatment needed, if necessary
Medical conditions aggravated by exposure: None known or reported. Treat symptomatically and supportively.

SECTION 5 - FIREFIGHTING MEASURES

Extinguishing media
In case of fire in the surroundings: Use water spray (fog), foam, dry powder, or carbon dioxide, as appropriate.

Specific hazards arising from the substance or mixture
May emit carbon monoxide and carbon dioxide.

Flammability/Explosivity
No explosivity or flammability data identified. As product is an aqueous solution, it is not expected to be flammable or explosive.

Advice for firefighters
In case of fire in the surroundings: use the appropriate extinguishing agent. Wear full protective clothing and an approved, positive pressure, self-contained breathing apparatus. Wash all equipment thoroughly after use.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures
If product is released or spilled, take proper precautions to minimize exposure by using appropriate personal protective equipment (see Section 8). Area should be adequately ventilated. Do not breathe mist/vapors/spray.

Environmental precautions
Do not empty into sanitary drains, sewers, or watercourses. Avoid release to the environment.

Methods and material for containment and cleaning up
For small spills, soak up material with absorbent, e.g., paper towels. For large spills, cordon off spill area and minimize the spreading of spilled material. Soak up material with absorbent. Collect spilled material, absorbent, and rinse water into suitable containers for proper disposal in accordance with applicable waste disposal regulations (see Section 13). Decontaminate the area twice.

Reference to other sections
See Sections 8 and 13 for more information.

SECTION 7 - HANDLING AND STORAGE

Precautions for safe handling
Follow recommendations for handling pharmaceutical agents (i.e., use of engineering controls and/or other personal protective equipment if needed). Avoid contact with eyes, skin and clothing. Wash thoroughly after handling. Avoid breathing vapor/mist/spray.
SECTION 7 - HANDLING AND STORAGE …continued

Conditions for safe storage including any incompatibilities
Keep in a dry, cool and well-ventilated place. Keep in properly labeled containers.

Specific end use(s)
No information identified.

SECTION 8 - EXPOSURE CONTROLS/PERSONAL PROTECTION

Control Parameters/Occupational Exposure Limit Values

<table>
<thead>
<tr>
<th>Compound</th>
<th>Issuer</th>

</tr>
</thead>
<tbody>
<tr>
<td>Non-Hazardous Reagent(s)</td>
<td>--</td>
<td>--</td>
<td>--</td>
</tr>
<tr>
<td>Polyethylene glycol nonylphenyl ether</td>
<td>--</td>
<td>--</td>
<td>--</td>
</tr>
</tbody>
</table>

Exposure/Engineering controls
Selection and use of containment devices and personal protective equipment should be based on a risk assessment of exposure potential. Use local exhaust and/or enclosure at aerosol/mist-generating points. Emphasis is to be placed on closed material transfer systems and process containment, with limited open handling. High-energy operations should be done within an approved emission control or containment system.

Respiratory protection
Choice of respiratory protection should be appropriate to the task and the level of existing engineering controls. An approved and properly fitted air-purifying respirator with HEPA filters may be considered to provide ancillary protection based on the known or foreseeable limitations of existing engineering controls.

Hand protection
Wear nitrile or other impervious gloves if skin contact is possible. Double gloves should be considered.

Skin protection
Wear appropriate gloves, lab coat, or other protective overgarment if skin contact is likely. Base the choice of skin protection on the job activity, potential for skin contact and solvents and reagents in use.

Eye/face protection
Wear safety glasses with side shields, chemical splash goggles, or full face shield, if necessary. Base the choice of protection on the job activity and potential for contact with eyes or face. An emergency eye wash station should be available.

Environmental Exposure Controls
Avoid release to the environment and operate within closed systems wherever practicable. Air and liquid emissions should be directed to appropriate pollution control devices. In case of spill, do not release to drains. Implement appropriate and effective emergency response procedures to prevent release or spread of contamination and to prevent inadvertent contact by personnel.

Other protective measures
Wash hands in the event of contact with this product/mixture, especially before eating, drinking or smoking. Protective equipment is not to be worn outside the work area (e.g., in common areas or out-of-doors).
### SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

**Other information**
SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES …continued

Molecular formula  Not applicable (Mixture)
Molecular weight  Not applicable (Mixture)

SECTION 10 - STABILITY AND REACTIVITY

Reactivity  No information identified.
Chemical stability  Stable under normal handling and storage conditions.
Possibility of hazardous reactions  No information identified.
Conditions to avoid  No information identified.
Incompatible materials  No information identified.
Hazardous decomposition products  No information identified.

SECTION 11 - TOXICOLOGICAL INFORMATION

Note  No data for this product/mixture were identified. The following data describe the active ingredient and/or the individual ingredients where applicable.

Information on toxicological effects

Route of entry  May be absorbed by inhalation, skin contact and ingestion.

Acute toxicity

<table>

</table>

Irritation/Corrosion  No data on product formulation. Polyethylene glycol nonylphenyl ether was irritating to rabbit eyes.

Sensitization  No data on product formulation.

STOT-single exposure  No data on product formulation.

STOT-repeated exposure/Repeat-dose toxicity  No data on product formulation.

Reproductive toxicity  No data on product formulation.
Developmental toxicity  No data on product formulation.
SECTION 11 - TOXICOLOGICAL INFORMATION …continued

Genotoxicity
No data on product formulation.

Carcinogenicity
No data on product formulation. None of the components of the product present at levels greater than or equal to 0.1% are listed by NTP, IARC, ACGIH or OSHA as a carcinogen.

Aspiration hazard
No data on product formulation.

Human health data
See "Section 2 - Other Hazards"

SECTION 12 - ECOLOGICAL INFORMATION

</tbody>
</table>

Persistence and Degradability
No data on product formulation.

Bioaccumulative potential
No data on product formulation.

Mobility in soil
No data on product formulation.

Results of PBT and vPvB assessment
Not performed.

Other adverse effects
No data on product formulation.

Note
The environmental characteristics of this product/mixture have not been fully investigated. Releases to the environment should be avoided.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste treatment methods
Used product should be disposed of according to local, state, and federal regulations. Do not discharge into sanitary drains (e.g. non-process drains) or down the toilet. All wastes containing the material should be properly labeled. Dispose of wastes in accordance to prescribed federal, state, and local guidelines, e.g., appropriately permitted chemical waste incinerator. Rinse waters resulting from spill cleanups should be discharged in an environmentally safe manner, e.g., appropriately permitted municipal or on-site wastewater treatment facility.
SECTION 14 - TRANSPORT INFORMATION

Transport
Based on the available data, this product/mixture is not regulated as a hazardous material/dangerous good under EU ADR/RID, US DOT, Canada TDG, IATA, or IMDG.

UN number
None assigned.

UN proper shipping name
None assigned.

Transport hazard classes and packing group
None assigned.

Environmental hazards
Based on the available data, this product/mixture is not regulated as an environmental hazard or a marine pollutant.

Special precautions for users
Avoid release to the environment.

Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code
Not applicable.

SECTION 15 - REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture
This SDS generally complies with the requirements listed under current guidelines in the US, EU and Canada. Consult your local or regional authorities for more information.

Chemical safety assessment
Not conducted.

TSCA status
Not listed.

SARA section 313
Not listed.

California proposition 65
Not listed.

Additional information
No other information identified.

SECTION 16 - OTHER INFORMATION

Full text of H phrases and GHS classifications

Sources of data
Information from published literature and internal company data.
SECTION 16 - OTHER INFORMATION …continued
