SAFETY DATA SHEET

Product Identifier: Cell-ID™ Intercalator-Ir
Catalog ID number: 201192A, 201192B, 201079
(Includes Panel Kits within the following range of Catalog numbers: 201302 – 2013XX)

SECTION 1 - IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

Contact information

General
Fluidigm Corporation
2 Tower Place, Suite 2000, South San Francisco, CA 94080
Main (U.S.): +1 (650) 266-6000
E-mail: techsupport@fluidigm.com

Emergency telephone number
+ (650) 266-6100 (outside US)
+ (866) 358-4354 (toll free)

Product identifier
Cell-ID™ Intercalator-Ir

Synonyms
None identified

Trade names
None identified

Chemical family
Mixture - contains Iridium (III) Complex

Relevant identified uses of the substance or mixture and uses advised against
For research use only. Not for use in diagnostic procedures.

Note
This SDS is written to address potential health and safety issues associated with the handling of the formulated product.

SECTION 2 - HAZARDS IDENTIFICATION

Classification of the substance or mixture

Globally Harmonized System [GHS]  Not classified.

AU Hazard Classification (NOHSC)  Hazardous Substance. Non-hazardous goods.

Label elements

GHS hazard pictogram  None required

GHS signal word  None required

GHS hazard statements  None required

GHS precautionary statements  None required

Other hazards
May cause eye/skin irritation. Mixture not yet fully tested.

Note
No component of this product present at level greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by OSHA; ACGIH; NTP or IARC.

SAFETY DATA SHEET

Product Identifier: Cell-ID™ Intercalator-Ir
Catalog ID number: 201192A, 201192B, 201079
(Includes Panel Kits within the following range of Catalog numbers: 201302 – 2013XX)

Note
This product is composed of Iridium (III) complex in water. According to 29 CFR 1910.31200(d), hazardous ingredients at less than <1% and carcinogens at less than <0.1% are considered non-hazardous. The concentration of Iridium in this product is below the regulatory threshold limit.

SECTION 4 - FIRST AID MEASURES

Description of first aid measures

Immediate Medical Attention Needed
No

Eye Contact
If easy to do, remove contact lenses, if worn. Immediately flush eyes with copious quantities of water for at least 15 minutes. If irritation occurs or persists, notify medical personnel and supervisor.

Skin Contact
Wash exposed area with soap and water and remove contaminated clothing/shoes. If irritation occurs or persists, notify medical personnel and supervisor.

Inhalation
Immediately move exposed subject to fresh air. If not breathing, give artificial respiration. If breathing is labored, administer oxygen. Immediately notify medical personnel and supervisor.

Ingestion
Do not induce vomiting unless directed by medical personnel. Do not give anything to drink unless directed by medical personnel. Never give anything by mouth to an unconscious person. Notify medical personnel and supervisor.

Protection of first aid responders
See Section 8 for Exposure Controls/Personal Protection recommendations.

Most important symptoms and effects, both acute and delayed
See Sections 2 and 11.

Indication of immediate medical attention and special treatment needed, if necessary
Medical conditions aggravated by exposure: None known or reported. Treat symptomatically and supportively.

SECTION 5 - FIREFIGHTING MEASURES

Extinguishing media
Use water spray (fog), foam, dry powder, or carbon dioxide, as appropriate for surrounding fire and materials.

Specific hazards arising from the substance or mixture
No information identified. May emit carbon monoxide, carbon dioxide, nitrogen-, chloride-, and metal-containing compounds.

Flammability/Explosivity
Not expected to be flammable or explosive.

Advice for firefighters
Wear full protective clothing and a self-contained breathing apparatus with a full facepiece operated in the pressure demand or other positive pressure mode. Decontaminate all equipment after use.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures
If product is released or spilled, take proper precautions to minimize exposure by using appropriate personal protective equipment (see Section 8). Area should be adequately ventilated. Do not breathe mist/vapors/spray.

Environmental precautions
Do not empty into drains. Avoid release to the environment.
Methods and material for containment and cleaning up

Dike area to contain spill. Maintain ventilation until all vapors have been eliminated. Take precautions as necessary to prevent contamination of ground and surface waters. If vials are crushed or broken, DO NOT CAUSE MATERIAL TO BECOME AIRBORNE. For small spills, soak up material with absorbent, e.g., paper towels. For large spills, cordon off spill area and minimize the spreading of spilled material. Soak up material with absorbent. Collect spilled material, absorbent, and rinse water into suitable containers for proper disposal in accordance with applicable waste disposal regulations (see Section 13). Decontaminate the area twice.

Reference to other sections
See Sections 8 and 13 for more information.

SECTION 7 - HANDLING AND STORAGE

Precautions for safe handling
Follow recommendations for handling pharmaceutical agents (i.e., use of engineering controls and/or other personal protective equipment if needed). Avoid breathing vapor or mist. Do not permit eating/drinking/smoking near this material. All materials used for transferring or preparing this product must be considered contaminated and disposed of properly.

Conditions for safe storage including any incompatibilities
Keep from contact with clothing and other combustible materials. Store at -20 °C in tightly closed container. Avoid strong oxidizers. Store in sealed containers that are appropriately labeled. Do not store in metal or glass containers. Do not store in direct sunlight. Do not store near organic substances.

Specific end use(s)
No information identified.

SECTION 8 - EXPOSURE CONTROLS/PERSONAL PROTECTION

Note
Dispose of broken vials/syringes in a sharps container.

</tbody>
</table>

Exposure/Engineering controls
Maintain adequate ventilation, eye wash and quick-drench facilities in work area.

Respiratory protection
Choice of respiratory protection should be appropriate to the task and the level of existing engineering controls. For routine handling tasks, an approved and properly fitted air-purifying respirator with appropriate HEPA filters should provide ancillary protection based on the known or foreseeable limitations of existing engineering controls. Use a powered air-purifying respirator equipped with appropriate HEPA filters or combination filters or a positive-pressure air-supplied respirator if there is any potential for an uncontrolled release, when exposure levels are not known, or in any other circumstances where a lower level of respiratory protection may not provide adequate protection.

Hand protection
Wear nitrile or other impervious gloves if skin contact is possible. When the material is dissolved or suspended in an organic solvent, wear gloves that provide protection against the solvent.

Skin protection
Wear appropriate gloves, lab coat, or other protective overgarment if skin contact is likely. Base the choice of skin protection on the job activity, potential for skin contact and solvents and reagents in use.

Eye/face protection
Wear safety glasses with side shields, chemical splash goggles, or full face shield, if necessary. Base the choice of protection on the job activity and potential for contact with eyes or face. An emergency eye wash station should be available.
SAFETY DATA SHEET

Product Identifier: Cell-ID™ Intercalator-Ir
Catalog ID number: 201192A, 201192B, 201079
(Includes Panel Kits within the following range of Catalog numbers: 201302 – 2013XX)

Environmental Exposure Controls
Avoid release to the environment and operate within closed systems wherever practicable. Air and liquid emissions should be directed to appropriate pollution control devices. In case of spill, do not release to drains. Implement appropriate and effective emergency response procedures to prevent release or spread of contamination and to prevent inadvertent contact by personnel.

Other protective measures
Wash hands in the event of contact with this product/mixture, especially before eating, drinking or smoking. Protective equipment is not to be worn outside the work area (e.g., in common areas or out-of-doors).

(Includes Panel Kits within the following range of Catalog numbers: 201302 – 2013XX)

Molecular formula Not applicable (Mixture)

SECTION 10 - STABILITY AND REACTIVITY

Reactivity No data available.
Chemical stability Stable under normal handling and storage conditions.
Possibility of hazardous reactions No data available.
Conditions to avoid Strong oxidizing agents, acids, bases, alkali metal salts, copper, zinc salts, cyanides.
Incompatible materials Strong oxidizers.
Hazardous decomposition products May form carbon dioxide and carbon monoxide, metal oxides.

SECTION 11 - TOXICOLOGICAL INFORMATION

Information on toxicological effects

Acute toxicity No data available.
Irritation/Corrosion No studies identified.
Sensitization No studies identified.
STOT-single exposure No studies identified.
STOT-repeated exposure/Repeat-dose toxicity No studies identified.
Reproductive toxicity No studies identified.
Developmental toxicity No studies identified.
Genotoxicity No studies identified.
Carcinogenicity No studies identified.
Aspiration hazard No data available.
Human health data See Section 2 - "Other hazards"

Persistence and Degradability No data identified.
Bioaccumulative potential No data identified.
Mobility in soil No data identified.
Results of PBT and vPvB assessment Not performed.
Other adverse effects No data identified.
SAFETY DATA SHEET

Product Identifier: Cell-ID™ Intercalator-Ir
Catalog ID number: 201192A, 201192B, 201079
(Includes Panel Kits within the following range of Catalog numbers: 201302 – 2013XX)

Note
The environmental characteristics of this product/mixture have not been fully investigated. Releases to the environment should be avoided.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste treatment methods
Dispose of wastes in accordance to prescribed federal, state, and local guidelines, e.g., appropriately permitted chemical waste incinerator. Do not send down the drain or flush down the toilet. All wastes containing the material should be properly labeled. Rinse waters resulting from spill cleanups should be discharged in an environmentally safe manner, e.g., appropriately permitted municipal or on-site wastewater treatment facility.

SECTION 14 - TRANSPORT INFORMATION

Transport
Based on the available data, this product/mixture is not regulated as a hazardous material/dangerous good under EU ADR/RID, US DOT, Canada TDG, IATA, or IMDG.

UN number
None assigned.

UN proper shipping name
None assigned.

Transport hazard classes and packing group
None assigned

Environmental hazards
Based on the available data, this product/mixture is not regulated as an environmental hazard or a marine pollutant.

Special precautions for users
Avoid release to the environment.

Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code
Not applicable.

Hazardchem Code/HIN
None assigned.

SECTION 15 - REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture
This SDS complies with the requirements under US, EU and GHS (EU CLP - Regulation EC No 1272/2008) guidelines. Consult your local/regional authorities for more information.

Chemical safety assessment
Not conducted.

WHMIS classification
Not classified.

TSCA status
United States inventory (TSCA 8b): This material is listed or exempted.

SARA section 313
Not listed.

California proposition 65
Not listed.

Component Analysis – Chemical Inventory
Iridium (III) complex is listed or exempted in the chemical inventory of the following countries:
- Australia, Canada, and Republic of Korea.
- China, Japan, Malaysia, New Zealand, Philippines, and Taiwan.

Additional information
No other information identified.
