SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

Contact information

General
Fluidigm Corporation
2 Tower Place, Suite 2000, South San Francisco, CA 94080
Main (US): +1 (650) 266-6000
Email: techsupport@fluidigm.com

Emergency telephone number
+ (650) 266-6100 (outside US)
+ (866) 358-4354 (toll-free)

Product identifier
Metal-Conjugated Proteins

Synonyms
None identified

Trade names
None identified

Chemical family
Mixture; contains sodium azide

Relevant identified uses of the substance or mixture and uses advised against
For research use only. Not for use in diagnostic procedures.

Note
This SDS is written to address potential health and safety issues associated with the handling of the formulated product.

Issue date
Jul 2020

SECTION 2: HAZARDS IDENTIFICATION

Classification of the substance or mixture

Globally Harmonized System [GHS] Not classified

AU hazard classification (NOHSC)

Label elements

CLP/GHS hazard pictogram None required

CLP/GHS signal word None required

CLP/GHS hazard statements None required

CLP/GHS precautionary statements None required

Other hazards
Mixture; contains sodium azide. The most common adverse effects reported with exposure to sodium azide include dizziness, headache, nausea and vomiting, rapid breathing and heart rate, restlessness, weakness, runny nose, cough, and red eyes. Overexposure to sodium azide may cause convulsions, low blood pressure, loss of consciousness, lung injury, reduced heart rate, and potentially fatal respiratory failure. Inhalation of sodium azide may cause respiratory irritation.

Note
This mixture is not classified as hazardous according to Regulation EC No 1272/2008 (EU CLP) and Hazard Communication Standard No. 1910.1200 (US OSHA). The pharmacological, toxicological and ecological properties of this mixture have not been fully characterized.
SAFETY DATA SHEET

Product Identifier: Metal-Conjugated Proteins
Catalog ID number: 3000000X–3999999X (stand-alone)
(Includes Panel Kits within the following range of Catalog numbers: 201302–2013XX; 201402-2014XX and 2015XX)

</table>

Note: The ingredients listed above are considered hazardous. The remaining components are non-hazardous and/or present at amounts below reportable limits. See Section 16 for full text of GHS classifications.

SECTION 4: FIRST-AID MEASURES

Description of first-aid measures

Immediate medical attention needed
Yes

Eye contact
If easy to do, remove contact lenses, if worn. Immediately flush eyes with copious quantities of water for at least 15 minutes. If irritation occurs or persists, notify medical personnel and supervisor.

Skin contact
Wash exposed area with soap and water and remove contaminated clothing/shoes. If irritation occurs or persists, notify medical personnel and supervisor.

Inhalation
Immediately move exposed subject to fresh air. If not breathing, give artificial respiration. If breathing is labored, administer oxygen. Immediately notify medical personnel and supervisor.

Ingestion
Do not induce vomiting unless directed by medical personnel. Do not give anything to drink unless directed by medical personnel. Never give anything by mouth to an unconscious person. Notify medical personnel and supervisor.

Protection of first-aid responders
See Section 8 for Exposure Controls/Personal Protection recommendations.

Most important symptoms and effects, both acute and delayed
See Sections 2 and 11.

Indication of immediate medical attention and special treatment needed, if necessary
Contains low levels of sodium azide. Medical conditions aggravated by exposure: none known or reported. Treat symptomatically and supportively.

SECTION 5: FIREFIGHTING MEASURES

Extinguishing media
Use water spray (fog), foam, dry powder, or carbon dioxide as appropriate for surrounding fire and materials.

Specific hazards arising from the substance or mixture
No information identified. May emit nitrogen-containing compounds.

Flammability/explosivity
No information identified

Advice for firefighters
Wear full protective clothing and a self-contained breathing apparatus with a full facepiece operated in the pressure demand or other positive pressure mode. Decontaminate all equipment after use.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment, and emergency procedures
If product is released or spilled, take proper precautions to minimize exposure by using appropriate personal protective equipment (see Section 8). Area should be adequately ventilated. Do not breathe mist/vapors/spray.

Environmental precautions
Do not empty into drains. Avoid release to the environment.
SAFETY DATA SHEET

Product Identifier: Metal-Conjugated Proteins
Catalog ID number: 3000000X–3999999X (stand-alone)
(Includes Panel Kits within the following range of Catalog numbers: 201302–2013XX; 201402-2014XX and 2015XX)

Methods and material for containment and cleaning up
If vials are crushed or broken, DO NOT CAUSE MATERIAL TO BECOME AIRBORNE. For small spills, soak up material with absorbent, for example, paper towels. For large spills, cordon off spill area and minimize the spreading of spilled material. Soak up material with absorbent. Collect spilled material, absorbent, and rinse water into suitable containers for proper disposal in accordance with applicable waste disposal regulations (see Section 13). Decontaminate the area twice.

Reference to other sections
See Sections 8 and 13 for more information.

SECTION 7: HANDLING AND STORAGE

Precautions for safe handling
Avoid breathing vapor or mist. Do not permit eating/drinking/smoking near this material. All materials used for transferring or preparing this product must be considered contaminated and disposed of properly.

Conditions for safe storage including any incompatibilities
Store at 2-8°C in tightly closed container. Avoid strong oxidizers. Store in sealed containers that are appropriately labeled.

Specific end uses
No information identified

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Note
Dispose of broken vials/syringes in a sharps container.

SAFETY DATA SHEET

Product Identifier: Metal-Conjugated Proteins
Catalog ID number: 3000000X–3999999X (stand-alone)
(Includes Panel Kits within the following range of Catalog numbers: 201302–2013XX; 201402-2014XX and 2015XX)

SAFETY DATA SHEET

Product Identifier: Metal-Conjugated Proteins
Catalog ID number: 3000000X–3999999X (stand-alone)
(Includes Panel Kits within the following range of Catalog numbers: 201302–2013XX; 201402-2014XX and 2015XX)

Section 7: Exposure/Engineering Controls

Exposure/Engineering Controls
If handling bulk product or vials are opened/crushed/broken: Selection and use of containment devices and personal protective equipment should be based on a risk assessment of exposure potential. Use local exhaust and/or enclosure at aerosol/mist-generating points. Emphasis is to be placed on closed material transfer systems and process containment, with limited open handling. High-energy operations should be done within an approved emission control or containment system.

Respiratory Protection
If handling bulk product or vials are opened/crushed/broken: Choice of respiratory protection should be appropriate to the task and the level of existing engineering controls. For routine powder handling tasks, an approved and properly fitted air purifying respirator should provide additional protection based on the known or foreseeable limitations of existing engineering controls.

Hand Protection
Wear nitrile or other impervious gloves if skin contact is possible. When the material is diluted in an organic solvent, wear gloves that provide protection against the solvent.

Skin Protection
Wear appropriate gloves, lab coat, or other protective overgarment if skin contact is likely. Base the choice of skin protection on the job activity, potential for skin contact, and solvents and reagents in use.

Eye/Face Protection
Wear safety glasses with side shields, chemical splash goggles, or full face shield if necessary. Base the choice of protection on the job activity and potential for contact with eyes or face. An emergency eye wash station should be available.

Environmental Exposure Controls
Avoid release to the environment and operate within closed systems wherever practicable. Air and liquid emissions should be directed to appropriate pollution control devices. In case of spill, do not release to drains. Implement appropriate and effective emergency response procedures to prevent release or spread of contamination and to prevent inadvertent contact by personnel.

Other Protective Measures
Wash hands in the event of contact with this product/mixture, especially before eating, drinking, or smoking. Protective equipment is not to be worn outside the work area (for example, in common areas or out-of-doors).

Metal-Conjugated Proteins
Page 4 of 8
SECTION 10: STABILITY AND REACTIVITY

Reactivity
Sodium azide may react with lead or copper plumbing to form highly explosive metal azides.

Chemical stability
Stable

Possibility of hazardous reactions
No information identified

Conditions to avoid
Keep away from strong oxidizing agents.

Incompatible materials
Strong oxidizing agents

Hazardous decomposition products
May form carbon dioxide and carbon monoxide, metal oxides

SECTION 11: TOXICOLOGICAL INFORMATION

Information on toxicological effects

Route of entry
May be absorbed by inhalation, skin contact, and ingestion.

Acute toxicity

**Sodium azide**

Sodium azide is toxic to aquatic organisms and should not be allowed to accumulate in metal piping because it has the potential to form explosive mixtures.

**Glycerol**

Additional toxicity information

Persistence and degradability
No data identified

Bioaccumulative potential
No data identified

Mobility in soil
No data identified

Results of PBT and vPvB assessment
Not performed

Other adverse effects
No data identified

Note
The environmental characteristics of this product/mixture have not been fully investigated. The above data are for the active ingredient and/or any other ingredients where applicable. Although present at low concentrations, disposal should consider that sodium azide is present. Releases to the environment should be avoided.

SECTION 13: DISPOSAL CONSIDERATIONS

Waste treatment methods
Dispose of wastes in accordance with prescribed federal, state, and local guidelines, for example, in an appropriately permitted chemical waste incinerator. Do not send down the drain or flush down the toilet. All wastes containing the material should be properly labeled. Rinse waters resulting from spill cleanups should be discharged in an environmentally safe manner, for example, in an appropriately permitted municipal or onsite wastewater treatment facility.

SECTION 14: TRANSPORT INFORMATION

Transport
Based on the available data, this mixture is not regulated as a hazardous material/dangerous good under EU ADR/RID, US DOT, Canada TDG, IATA, or IMDG.

UN number
None assigned

UN proper shipping name
None assigned

Transport hazard classes and packing group
None assigned

Environmental hazards
Based on the available data, this mixture is not regulated as an environmental hazard or a marine pollutant.

Special precautions for users
No special precautions needed. Avoid release to the environment.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable

Hazchem Code/HIN
None assigned

SECTION 15: REGULATORY INFORMATION

Safety, health, and environmental regulations/legislation specific for the substance or mixture
This SDS complies with the requirements under US, EU, and GHS (EU CLP, Regulation EC No. 1272/2008) guidelines. Consult your local/regional authorities for more information.

Chemical safety assessment
Not conducted

WHMIS classification
Not classified

TSCA status
